

Aberdeen Road - N5

A beautiful, light filled apartment situated on a wide, quiet, tree lined street in Highbury, with stunning views over the green spaces of North London. Arranged across three floors, this generously proportioned apartment begins on the first floor of a grand Victorian semi. A large open plan living, dining and kitchen has double aspect windows, with a walk in bay to the front and a triple set of sash windows to the rear. Showcasing high ceilings, original mouldings, and a beautiful marble and slate fireplace; the owners have completely modernised the space but retained the period details. The floors are herringbone parquet in European oak, the space is filled with contemporary art, minimalist furniture and lots of plants.
