

Calm Oasis SW17

This newly renovated 5 bed Victorian house in Wandsworth offers a wonderful mix of Victorian architectural features, including original cornicing, staircase and fireplace. Combined with a modern kitchen extension to the rear, concrete floors and full height sliding doors spanning the width of the house, the unusually high ceilings and large skylights provide superb natural light. The front door opens onto a wide entrance hallway leading onto a formal living room at the front of the house (featuring solid wood floors and the original Victorian cornicing and fireplace). Behind this is a more relaxed living space that opens up onto a large open concept kitchen dining room, with floor to ceiling sliding doors to the garden spanning the width of the house and modern concrete floors. Leading off from the kitchen is a large open plan basement with high floor to ceiling height and two courtyard light wells. The first floor has two large bedrooms, both with ensuite bathrooms, and a study. The second floor has two kids' bedrooms, both with ensuite shower rooms. Externally the original Victorian architecture and light London stock brick has been complemented with dark painted rendering, sash windows and front door. The house also benefits from off street parking at the front for two cars and a large modern garden to the rear with convenient side access.
