

Holland House NW10

This beautifully modernised Edwardian property is located in Kensal Rise. It features a large open, grey gloss kitchen with white quartz worktops and island with gas cooker, making it ideal for cooking shoots. The open plan kitchen/dining area steps out onto a private garden, giving additional space for lighting or crew breaks. Its style is contemporary/industrial chic with plenty of great props including a vintage rocking horse, vintage circus arrow, original 1930's dressing table, Edwardian cast iron fireplaces with tiled hearths, Yak's skull and a bright pink sofa. The property is 1800 square foot and has off street parking. The house is large and wide enough to accommodate film crews and/or to set up a backdrop for photoshoots. Great for editorials, lifestyle, homewares and cooking shoots.
