

# Seaview - Essex

A stunning front line coastal property with sweeping views over the Thames Estuary and the longest pier in Europe. This sizeable and imposing Luxury Beach House overlooks a quaint and historic bowling green and offers panoramic views courtesy of its wide windows in living room, dining room and bedroom areas. An architectural central glass walkway and stairs spans its three floors, where all rooms are lit with natural light. There is a bright and contemporary kitchen area. The esplanade walk provides quick and easy access to the beach and several charming coffee shops, as well as close proximity to Old Leigh Fishing village and quintessentially English public houses, coffee shops and restaurants. The local waters are also busy with water-sports, including paddleboarding, kite surfing and kite surfing, all visible from the property.
