

# Shoreditch Park townhouse

Beautiful 5 story architect designed house with loads of light form internal light wells that span all floors on both sides of the house. Everything is open plan. There are 4 balconies/terraces and a small garden to the back. There are 3 bathrooms. Mezzanine level and large double height atriums to the front and rear of the living spaces. Super open and light for shooting. The owner is an interior designer so there are many stunning features including original pieces of architect furniture and lighting. The house is situated opposite Shoreditch Park, and there is no through road so lots of parking space!
